

Easily toggle between your RethinkEd and Vizzle accounts

RethinkEd + vizzle®

Your RethinkEd and Vizzle® accounts are linked — move between platforms with a single click. How you first sign in depends on your district. Below: direct login, the difference between **Clever** and **ClassLink** SSO, and how to toggle.

1 Log in

NO SSO? Log in directly — **RethinkEd:** rethinked.com/login | **Vizzle®:** nextgen.govizzle.com

Using SSO? Log in to your portal and find the app icon. Clever and ClassLink present the apps differently:

Clever One combined icon

- Click the single **RethinkEd/Vizzle** app icon.

Rethink Ed/Vizzle

- On the landing page, choose your platform.

Which tool would you like to use?

ClassLink Two separate icons

- You'll see **two separate icons** — no landing page.

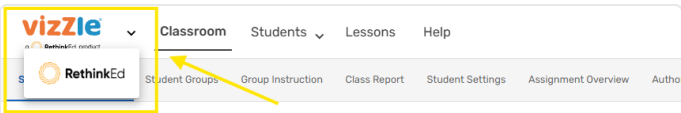

- Click the platform you want — **RethinkEd** is on the **left**, **Vizzle** on the **right**.

ClassLink takes you straight in — no "which tool?" chooser step.

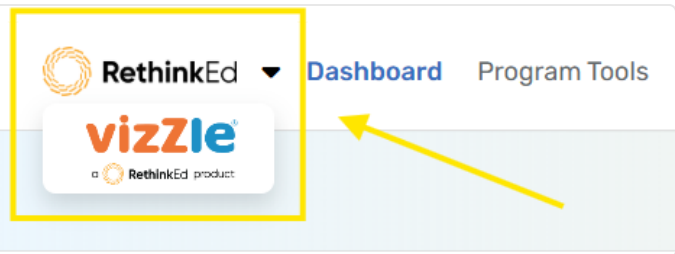

2 Toggle between platforms

Once inside, click the platform button in the **top-left** of the navigation bar and select the other platform to switch instantly — no need to log out.

Vizzle → RethinkEd

RethinkEd → Vizzle

First time toggling? If you haven't accessed both accounts at least once, your first toggle may show a **merging screen**. Enter your credentials for the other platform to link the two — you'll only do this once.

Questions? We're here to help.
